

Leping Social Welfare Institution **Amity Semi-Annual Report: November 2013**

Leping Orphanage in Jiangxi Province

He Huolan and LY

Hugging Granny Program: Meet He Huolan

He Huolan is responsible for both visiting the Leping foster families and coordinating their visits to the orphanage. During these visits she also distributes each family's allotted powdered milk. The children are very familiar with Huolan and are always happy to see her. During her visits she speaks with both the children and parents, listening to their stories and providing guidance concerning childcare. While visiting LH, Huolan spends time doing walking exercises with her, in addition to speaking with LH's mother and providing advice as to how to engage in rehabilitation exercises.

Director: *He Yuanming*

Vice-Directors:

President He and President Li

Amity Representative:

Hua Chunfang

Number of Children: 15
*children in foster care, 3 funded
by the Amity Foundation,
and 12 funded by the Leping
Orphanage*

**In 2013 there have been no
adoptions**

Every time He Huolan visits a family she provides guidance as to the care of the children, and given the colder weather, she has been making sure that families know to make sure their children remain warm and tucked in at night to avoid sickness.

He Huolan and LH

Amity's Foster Care (& Education) Sponsorship Projects

*Ms. Luo of Amity
with PH and PT*

PH's verbal skills are improving, such that she can speak more Mandarin and hold some conversation. She gets along well with her mother and has conversations with her; if she feels something is wrong, she will often ask her mother if she is alright. She is learning how to look after herself, such as washing, dressing, feeding herself, and using the restroom unaided.

PT enjoys eating and is very conscious when food is available, often saying "I want... I want." He can understand some speech, and will respond by indicating his desires. He enjoys both playing around the house and outside, though he does not stray far from home, preferring instead to play in the sand nearby. He has a good appetite, but still requires some assistance when eating.

LY continues to grow and has begun to put on more weight, such that her mother has difficulty at times helping her into her wheelchair, though LY is happy to cooperate and help her mother with the task. Since she enjoys listening to music, her family purchased a stereo. She listens to music as well as other programs, and when she hears a song she likes LY will often sing along. She is learning how to cook and look after herself, and when using the restroom her mother will come to help her.
